Costing Methodology Used:
- Costing Technique:
Treasury's costing differs from that submitted primarily due to the number of parking spaces required to achieve an increase in accessible parking spaces of at least 5 per cent in key locations. Treasury notes that to achieve this element of the commitment would require approximately 620 accessible parking spaces to be provided.
Treasury's costing also includes minor amendments to the cost of funds, administration on-costs and depreciation of the parking infrastructure on a straight line basis over 50 years rather than 25 years.
