## **Budget Expenditure and Capital Priorities, Savings Measures, Revenue Raising and other Ideas**

- Budget Expenditure and Capital Priorities, Savings Measures, Revenue Raising and other Ideas: Thinking about GST revenue disbursement to the states/territories. Given that a lot of Commonwealth Government multinational suppliers, for ACT based staff/activities - with HQs (accounts depts.) - outside of Canberra e.g. Sydney/Melbourne/Brisbane. Presumably the GST is remitted to those states. How can the ACT recover more of that GST? Sorry - not sure of the actual mechanics and realise it is not 'fixable' for this budget but thought it was worth starting to think about it.
