

## 2020 Election Commitment – ACT Greens

**Name of Commitment:** Smoke-free, heated managed schools

**Reference Number:** GRN011

**Request Submitted by:** Shane Rattenbury MLA, ACT Greens

**Date Request Received:** 08-Oct-20

**Additional Information Requested (details and date)** N/A

**Additional Information Received (details and date)** N/A

### **Basis of non-costing:**

The announced policy is to ensure all indoor learning spaces are between 17 and 30 degrees at all times, appropriately ventilated, and smoke-free. Given the uncertainty on the scope of works required to achieve this, it is not possible to cost the policy in the time available.

Treasury notes the submitted costing request includes \$30 million to undertake energy efficiency and air leakage audit of all ACT school facilities and upgrades identified as necessary as a result of these audits. Treasury considers the cost estimates for these elements in isolation to be reasonable.
