## Objectives

The Home Loan Portfolio is responsible for the administration of home loans, which were granted by the Commissioner for ACT Housing to assist low-income households in achieving home ownership. All ACT home buyer lending ceased in 1996.

The Portfolio's objective is to administer the remaining home loans effectively and efficiently.

## 2006-07 Priorities

Strategic and operational issues to be pursued in 2006-07 include:

- reviewing all unsecured loans; and
- enhancing reporting of insurance coverage for all home loans.

## Output Class 1 - Home Loan Portfolio

| Output Class 1: Home Loan Portfolio | 4,877 | 4,785 |
| Output 1.1: Home Loan Portfolio | 4,877 | 4,785 |

## Output Description

This output provides for the administration of the Home Loan Portfolio in line with the loan and deferment agreements between the Commissioner for ACT Housing and the borrowers.

In 2006-07 the Home Loan Portfolio will:

- manage between 453 (2005-06 estimated outcome) and 366 (projection at 30 June 2007) loans; and
- comply with the Australian Government's loan repayment schedule.

## Accountability Indicators

| b. Administration cost per home loan managed. ${ }^{2}$ | $\$ 816$ | $\$ 837$ | $\$ 1,038$ |

## Note

1. Measure discontinued.
2. The increase in the 2006-07 target is a result of the reduction of outstanding loans while administrative expenditure remains fixed at 2005-06 levels.

## Notes to Budget Statements

Significant variations are as follows:

## Operating Statement

- interest:
- the decrease of $\$ 0.394$ million in the 2005-06 estimated outcome from the original budget is primarily due to the lower number of outstanding loans and the lower interest rate for investments relative to expectations of the 2005-06 Budget; and
- the increase of $\$ 0.291$ million in the 2006-07 Budget from the 2005-06 estimated outcome is due to a projected higher interest rate for investments, which offsets the continuing decline of home loan interest revenue.
- other revenue: the unbudgeted other revenue of $\$ 3.1$ million in the 2005-06 estimated outcome is due to the downward revision of the provision for doubtful debts from $\$ 12.5$ million to $\$ 9.4$ million as a result of the overall reduction of outstanding loans.

## Balance Sheet

- current receivables: the decrease of $\$ 0.114$ million in the 2006-07 Budget from the 2005-06 estimated outcome is due to a reduction in outstanding loans and some anticipated early discharge by borrowers.
- non-current receivables:
- the decrease of $\$ 1.331$ million in the 2005-06 estimated outcome from the original budget is due to higher discharges than expected in the last quarter of 2004-05; and
- the decrease of $\$ 1.463$ million in the 2006-07 Budget from the 2005-06 estimated outcome is due to expected early repayment of loans.
- non-current investments:
- the increase of $\$ 6.455$ million in the 2005-06 estimated outcome from the original budget is due to the higher discharge of outstanding loan amounts than expected in the last quarter of 2004-05; and
- the increase of $\$ 2.223$ million in the 2006-07 Budget from the 2005-06 estimated outcome reflects interest revenue expected from long-term investments.
- current and non-current interest bearing liabilities: this represents the loan from the Australian Government, which is scheduled to be fully paid in 2040.

## Cash Flow Statement

The major variances within the Cash Flow Statement are explained within the Operating Statement and Balance Sheet above.

Other significant variances are as follows:

- repayment of home loan principal:
- the decrease of $\$ 0.257$ million in the 2005-06 estimated outcome from the original budget reflects more deferred assistance than anticipated in the last quarter of 2004-05; and
- the decrease of $\$ 0.258$ million in the 2006-07 Budget from the 2005-06 estimated outcome reflects the smaller balance of outstanding loans.
