

8th April 2026

Dear Budget Consultation team,

The Downer Community Association (DCA) asks that, in the 2026-7 budget, the previous budget allocation for new public toilets at the Downer shops in Frencham Place be increased to allow completion by the end of 2027 of at least two toilet cubicles, including an accessible toilet, change room with baby change facilities and directions to the nearest other public toilet.

We note that the new single toilet at the Inner North playground on Windeyer St in Watson is often unavailable because it is out of order. A second toilet would substantially reduce the likelihood of people having to find their way, without directions, to another public toilet at least a kilometre away.

DCA looks forward to hearing from the Consultation team with a positive response to our request.

Regards,

Robyn Rennie
DCA Convenor
