

ACT BUDGET SUBMISSION

I believe that the south-west area of the Mawson sporting grounds (ie near the corner of Athllon Drive and Beasley St) could be put to good use with the construction of an indoor sporting facility. As a nearby resident I can vouch for the fact that, apart from the recent siting of the Moscow Circus, the area is hardly ever used apart from the occasional person walking though. There is ample parking nearby plus ready access to R4 and R5 rapid buses. It is in a part of Canberra that is well-provided for outdoor sports but not for indoor sports, and also has plenty of green space. Besides, the area is not watered and therefore not very green.

I will add that I have no personal interest in this proposal, but am prompted by frequently going past and seeing it as wasted land.
