What are the key assumptions that have been made in the proposal?

Note: The costing will be developed on the basis of information and assumptions provided in the costing request. The professional judgment of the Under Treasurer will determine whether these assumptions are adopted in the costing of the proposal.

- In March 2024, a playground upgrade in Aranda was completed at a cost of \$407,000 (source linked below).
- The cost of this playground is assumed to be slightly lower than the Aranda playground. A re-elected ACT Labor Government would seek to draw from the outcomes of previous extensive community playground consultations to inform elements of standard playground design when procuring. This will enable the Government to explore prefabricated playground equipment and reduce the cost of play equipment.
- Depreciation for the playground is assumed with a 20-year useful life starting on 1 July 2027
- This proposal will be fully offset from the TCCS Asset Renewal Program
