|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Costing Methodology Used:</b>                                                                                                                                                                                                                                                                                                                                                         |
| <b>- Costing Technique:</b>                                                                                                                                                                                                                                                                                                                                                              |
| The costing is for a fixed amount of \$75,000 per annum over four years from 2025-26 to 2028-29 inclusive (\$300,000 in total) for an increase to the Return to Work grants program to support women to return to work. The costing is based on a \$500 increase in funding provided to grants recipients (from \$1,000 to \$1,500 per person), and 150 grants being provided per annum. |
| <b>- Proposal Parameters:</b>                                                                                                                                                                                                                                                                                                                                                            |
| <ul style="list-style-type: none"> <li>The costing assumes that administrative expenses associated with the program would be absorbed by the Community Services Directorate.</li> <li>No indexation has been applied.</li> <li>The costing assumes a full take-up of the grants program, with 150 grant recipients per annum.</li> </ul>                                                 |
| <b>Caveats or qualifications to the costing:</b>                                                                                                                                                                                                                                                                                                                                         |
| The costing is capped at 150 recipients per annum for the grants program. Should there be additional grant recipients in a given year, then there would be a corresponding increase in expenses of \$500 per additional grant recipient.                                                                                                                                                 |

**Other Comments:**

Treasury's costing differs from that submitted as it reflects increase of \$500 per grant multiplied by 150 grants per year, whereas the costing request appears to assume the increase of \$500 per grant multiplied by 141 grants (the number of grant recipients reported for the 2022-23 financial year).

The cost over the Budget and forward estimate years is \$225,000, and \$300,000 over the four years from 2025-26 to 2028-29 inclusive.
