## Objectives

The Home Loan Portfolio is responsible for the administration of home loans, which were granted by the Commissioner for ACT Housing to assist low-income households in achieving home ownership. All ACT Government home buyer lending ceased in 1996.

The Portfolio's objective is to administer the remaining home loans effectively and efficiently.

## 2007-08 Priorities

Strategic and operational issues to be pursued in 2007-08 include:

- continuing the review of all unsecured loans; and
- improving the reporting of insurance coverage for all home loans.

## Estimated Employment Level

| Output Class 1: Home Loan Portfolio | Estame <br> \$'000 | 4,793 |

## Output Description

This output provides for the administration of the Home Loan Portfolio in line with the loan and deferment agreements between the Commissioner for ACT Housing and the borrowers.

In 2007-08, the Home Loan Portfolio will:

- manage between 332 (2006-07 estimated outcome) and 250 (projection at 30 June 2008) loans; and
- comply with the Australian Government's loan repayment schedule.

## Note

1. The increase in the 2007-08 target is a result of the reduction of outstanding loans while administrative expenditure remains static at 2006-07 levels.

## Notes to Budget Statements

Significant variations are as follows:

## Operating Statement

- interest:
- the decrease of $\$ 0.480$ million in the 2006-07 estimated outcome from the original budget is primarily due to a lower number of outstanding loans and a lower interest rate for investments relative to expectations of the 2006-07 Budget; and
- the increase of $\$ 1.077$ million in the 2007-08 Budget from the 2006-07 estimated outcome is due to a projected higher interest rate for investments.

## Balance Sheet

- cash and investments: the decrease of $\$ 1.954$ million in the 2007-08 Budget from the 2006-07 estimated outcome is due to the withdrawal of $\$ 4.3$ million of equity, partially offset by increased cash associated with loan repayments and interest revenue.
- current and non-current receivables:
- the decrease of $\$ 3.350$ million in the 2006-07 estimated outcome from the original budget is due to higher loan discharges than expected in 2006-07; and
- the decrease of $\$ 1.078$ million in the 2007-08 Budget from the 2006-07 estimated outcome is due to a reduction in outstanding loans and some expected early repayment of loans.
- current and non-current interest bearing liabilities: the decrease of $\$ 2.220$ million in the 2007-08 Budget from the 2006-07 estimated outcome represents the loan from the Australian Government, which is scheduled to be fully paid in 2040.

## Cash Flow Statement

The major variances within the Cash Flow Statement are explained within the Operating Statement and Balance Sheet above.

Other significant variances are as follows:

- repayment of home loan principal:
- the decrease of $\$ 0.222$ million in the 2006-07 estimated outcome from the original budget reflects more deferred assistance than anticipated in 2005-06; and
- the decrease of $\$ 0.212$ million in the 2007-08 Budget from the 2006-07 estimated outcome reflects the smaller balance of outstanding loans.
- distributions to Government: the distribution of $\$ 4.3$ million in the 2007-08 Budget is due to the withdrawal of equity to be invested in public housing.
