

Pre-Election

Budget Update

2016

A STATEMENT BY THE UNDER TREASURER OF THE CHIEF MINISTER, TREASURY AND ECONOMIC DEVELOPMENT DIRECTORATE

SEPTEMBER 2016

THE 2016 PRE-ELECTION BUDGET UPDATE

PURPOSE AND CONTENT OF THE 2016 PRE-ELECTION BUDGET UPDATE

The purpose of the 2016 Pre-Election Budget Update is to: (a) allow the assessment of the Government's financial performance against the financial policy objectives and strategies set out in the latest financial policy objectives and strategies statement (ie the 2016-17 ACT Budget Papers); and (b) give the electorate an accurate picture of the Territory's financial position before the 2016 ACT Legislative Assembly Election.

The Pre-Election Budget Update includes updated estimates for the General Government Sector, Public Trading Enterprises and the consolidated Total Territory Government, together with full accrual financial statements and notes for each sector.

STATEMENT BY THE UNDER TREASURER

Financial Management (Pre-Election Budget Update) 2016 (No 1)

Notifiable Instrument NI2016-485

made under the

Financial Management Act 1996, s20C Pre-Election Budget Update

I, David Nicol, Under Treasurer, do hereby exercise my authority under section 20C of the *Financial Management Act 1996* to present the 2016 Pre-Election Budget Update.

Consistent with section 20D of the *Financial Management Act 1996*, the 2016 Pre-Election Budget Update provides updated fiscal and economic estimates and projections to allow for an assessment of the government's financial performance against stated fiscal strategy and policy objectives.

The information contained in this update:

- i. reflects the best professional judgment of Treasury officers in the Chief Minister, Treasury and Economic Development Directorate;
- ii. takes into account all available economic and fiscal information; and
- iii. incorporates the fiscal implications of any Government decisions and circumstances disclosed by the Treasurer.

This update is current as at 8 September 2016.

David Nicol Under Treasurer 14 September 2016

FOREWORD

The Pre-Election Budget Update (PEBU) is a legislated document published prior to an election in accordance with sections 20C and 20D of the *Financial Management Act 1996*. The purpose of the PEBU is to allow for an assessment of a government's financial performance against its stated financial policy objectives and strategies as set out in the latest economic update, and provide an accurate picture of the Territory's current financial position before an election.

This update incorporates Government decisions and announcements, technical changes and the impacts of known external factors – where they are certain and quantifiable – since the time of the 2016-17 Budget. The flow-on impacts of the 2015-16 interim audited outcome have also been included. Where significant issues have been identified, but are not certain or are unable to be quantified with reasonable certainty, they have been identified as risks in the Statement of Risks (Appendix B).

Known and advised changes in Commonwealth estimates, including any intergovernmental agreements, are reflected in the PEBU estimates where there is a financial impact on the Territory.

Where information remains unchanged from that published in the 2016-17 Budget Papers, it has typically not been reproduced in this document.

The PEBU incorporates information up to 8 September 2016.

OVERVIEW

The estimates contained in this Pre-Election Budget Update reflect current Government policy, including any policy decisions taken since the 2016-17 Budget. For transparency reasons, this document clarifies the effect on the estimates of particular items and provides an analysis of risks that have changed since the 2016-17 Budget.

The Territory's economic outlook remains consistent with that published in the 2016-17 Budget Papers and the economic growth parameters are therefore unchanged. Recent economic data released by the Australian Bureau of Statistics is consistent with the economic outlook presented in the 2016-17 ACT Budget.

The General Government Sector (GGS) Headline Net Operating Balance (HNOB) is forecast to be in deficit by \$205.2 million in 2016-17. This deficit is \$23.2 million higher than forecast in the 2016-17 Budget, primarily as a result of an increase in the Superannuation Liability Valuation.

At the time of the 2016-17 Budget, the Superannuation Liability Valuation and estimated superannuation expense for 2016-17 were based on an estimated discount rate of 3.2 per cent. The increase in the Superannuation Liability Valuation at 30 June 2016 and consequent increase in the superannuation expense for 2016-17 is due to the lower actual discount rate of 2.69 per cent at 30 June 2016.

Since the 2016-17 Budget, the HNOB has declined in each of the forward years, largely as a result of Government policy decisions. These decisions increase the forecast Headline Net Operating deficit by \$3.5 million in 2016-17, and by a total of \$92.5 million over the four years to 2019-20.

For the period 2017-18 to 2019-20, forecast GGS expenses have increased by \$83.8 million since the 2016-17 Budget, reflecting policy decisions by the Government. For the period 2017-18 to 2019-20, forecast GGS revenue has decreased by \$2.0 million. The decrease reflects a small reduction in expected superannuation investment income, which is offset by an estimated overall increase in total superannuation earnings (including the Superannuation Return Adjustment).

The following table provides updated estimates of the HNOB for 2016-17 and the forward years for the three sectors – General Government, Public Trading Enterprises and Total Territory.

| 2016 Pre-Election Budget Update | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|-----------------------------------|---------|---------|---------|---------|
| | \$m | \$m | \$m | \$m |
| General Government Sector | -205.2 | -55.0 | 16.4 | 40.5 |
| Public Trading Enterprises Sector | 235.6 | 168.8 | 215.5 | 198.4 |
| Total Territory | -230.4 | -82.1 | -15.0 | -36.1 |

Table 1: Headline Net Operating Balance

Note: The HNOB for the Total Territory does not equal the sum of the General Government and Public Trading Enterprise sectors due to the impact of intra sector transactions.

Updated financial statements for the GGS, Public Trading Enterprises and Consolidated Total Territory can be found at Appendices D, E and F, respectively.

ECONOMIC OUTLOOK

Economic growth in the ACT is increasing following the end of recent staffing reductions and the staffing freeze in the Australian Public Service.

The recovery has also been supported by a lower Australian dollar and its positive impact on exports of: international education; tourism; and technical, trade related and other business services.

Historically low interest rates have also assisted through their positive impact on consumer spending, housing affordability and housing construction activity. Business confidence has also risen, consistent with an improving economic outlook.

State Final Demand (SFD), a partial measure of economic growth¹, grew by a strong 6 per cent over the course of 2015-16.

Of this 6 per cent growth, two thirds was a result of National Government consumption (up 7.3 per cent). Total private investment (up 13.3 per cent) and private consumption (up 3.2 per cent) each contributed 0.9 percentage points. National Government investment contributed a further 0.4 percentage points (up 6.3 per cent).

ACT Government consumption contributed 0.3 percentage points (up 4.6 per cent), with ACT Government investment detracting 0.5 percentage points from growth (down 21.8 per cent from a record high in the June quarter 2015).

In 2015-16, SFD increased by 3.4 per cent in year-average terms, which is above the 2016-17 Budget forecast for 2015-16 of 2½ per cent growth.

Employment growth has also been positive, recording 1.7 per cent growth, or an additional 3,500 jobs, over the course of 2015-16. This outcome exceeded the 2016-17 Budget forecast growth rate of 1 per cent for 2015-16. Overall, the ACT's unemployment rate now sits at 3.6 per cent.

Recent economic indicators are consistent with the forecasts contained in the 2016-17 Budget. Given this, no changes have been made to the Pre-Election Budget Update (PEBU) forecasts. As is the usual practice, this update is based on the assumption that the economy will return to trend levels of growth in the period 2017-18 to 2019-20.

Table 2 below provides the economic forecasts used in the PEBU.

¹ State Final Demand differs from Gross State Product in that it excludes both international and interstate trade as well as changes in inventories. Gross State Product for 2015-16 is not currently available.

| | Estimate/ | Forecasts | | Projections | | |
|---|------------|-----------|---------|-------------|---------|--|
| | Actual | | | | | |
| | 2015-16 | 2016-17 | 2017-18 | 2018-19 | 2019-20 | |
| ACT | | | | | | |
| Gross State Product ² | 2 | 2¼ | 21/2 | 21/2 | 21/2 | |
| State Final Demand ^{3,4} | 3.4 (+0.9) | 21/2 | 4 | 4 | 4 | |
| Employment ⁴ | 1.7 (+0.7) | 1¼ | 11/2 | 1½ | 1½ | |
| Wage Price Index ^{4,5} | 1.9 (+0.2) | 2 | 31/2 | 31/2 | 3½ | |
| Consumer Price Index ⁴ | 0.8 (+0.1) | 1 | 21/2 | 21/2 | 21⁄2 | |
| Population | 1½ | 1½ | 11/2 | 1½ | 1½ | |
| Australia | | | | | | |
| Gross Domestic Product ^{3,4,6} | 2.9 (+0.4) | 21/2 | 3 | 3 | 3 | |

Table 2: Economic Forecasts, 2016 Pre-Election Budget Update, percentage change¹

Sources: ABS Cat. No. 5206.0, 6202.0, 6345.0 and 6401.0; Chief Minister, Treasury and Economic Development Directorate; Commonwealth 2016 Pre-election Economic and Fiscal Outlook.

Notes: Numbers in brackets represent the difference between the forecast in the 2016-17 Budget and the actual result for 2015-16. For Gross Domestic Product, the comparison is to the Commonwealth's 2016 Pre-election Economic and Fiscal Outlook. Forecasts and projections are rounded to a ¼ of a percentage point, reflecting an appropriate level of accuracy in forecasting economic parameters. Projections are based on long-run trend assumptions.

1. Forecasts are on a through the year basis, unless otherwise specified.

2. Gross State Product is forecast on a real basis.

3. Year average basis.

4. Actual for 2015-16.

5. Total hourly rates of pay excluding bonuses.

6. These are the Commonwealth's 2016 Pre-election Economic and Fiscal Outlook forecasts.

Headline Net Operating Balance

The Headline Net Operating Balance (HNOB) is forecast to be a deficit of \$205.2 million in 2016-17, an increase of \$23.2 million in the deficit as published in the 2016-17 Budget. This variation primarily relates to an increase in the Superannuation Liability Valuation at 30 June 2016 and the resulting increase in the superannuation expense for 2016-17. The increase is due to the actual discount rate used to value superannuation liabilities as at 30 June 2016 being lower than the estimated rate used in the 2016-17 Budget.

Given revenue trends to date in 2016-17 and a stable economic outlook since the 2016-17 Budget, taxation revenue estimates have not changed. The overall revenue estimates remain broadly consistent with previous forecasts.

Table 3 below provides updated estimates of the General Government Sector (GGS) HNOB and its primary components, as well as the main financial indicators.

| 2016 Pre-Election Budget Update | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|---|---------|---------|---------|---------|
| | \$m | \$m | \$m | \$m |
| Revenue | 5,048.3 | 5,099.8 | 5,380.3 | 5,582.9 |
| Expenses | 5,424.3 | 5,336.4 | 5,553.9 | 5,745.9 |
| Superannuation Return Adjustment ¹ | 170.8 | 181.6 | 190.0 | 203.5 |
| HEADLINE NET OPERATING BALANCE | -205.2 | -55.0 | 16.4 | 40.5 |
| Net Cash from Operating Activities | 240.0 | 515.0 | 409.1 | 631.8 |
| Net Debt (excluding superannuation) | 1,916.0 | 1,987.0 | 2,834.8 | 2,538.5 |
| Net Financial Liabilities | 5,215.6 | 5,423.2 | 6,221.1 | 6,058.2 |

Table 3: General Government Sector Headline Net Operating Balance

Note: Numbers may not add due to rounding.

1. The HNOB incorporates the impact of long-term superannuation investment earnings to provide an accurate assessment of the longer-term sustainability of the budget position.

Summary of Movements

As a result of policy decisions taken by the Government since the 2016-17 Budget and some technical adjustments, the HNOB has reduced in each year. Details of the major movements are outlined in Table 4.

| | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|--|---------|---------|---------|---------|

Table 4: Summary of Movements in the General Government Sector Headline Net OperatingBalance since the 2016-17 Budget

Notes: Numbers may not add due to rounding.

1. A positive number represents an increase in revenue.

2. A negative number represents an increase in expenses.

3. This adjustment reflects the actual Superannuation Liability Valuation audited outcome at 30 June 2016, and the flow-on impact to superannuation expenses in 2016-17, based on the actual discount rate at 30 June 2016.

Descriptions of each policy decision and the major technical adjustments are outlined below.

Policy Decisions

Workers' Compensation

In the 2015-16 Budget, the Government announced a decision to implement a new workers' compensation scheme. The details of the new scheme have not yet been finalised. As such, the Government has agreed to include the costs of remaining in Comcare in the forward estimates. This includes the removal of the savings of \$5 million a year from 2017-18 included in the 2016-17 Budget estimates, as well as the incorporation of additional expenses (of \$28.1 million over the forward estimates) to supplement agencies for expected Comcare costs.

Rapid Bus Network

The Government has agreed to the staged introduction of seven new rapid bus routes from 2017 to 2020. This initiative includes the associated purchase of 80 new buses and operating costs, and includes savings from improved efficiencies in ACTION's services and estimates of additional revenue for the new rapid bus routes. As ACTION is in the Public Trading Enterprise sector rather than the GGS, the savings and revenue are not reflected in the movements table above. The expense profile in Table 4 above is for the associated costs of the Transport Canberra and City Services Directorate (TCCS).

Green Waste Bins

The Government has announced the staged rollout of green waste bins across the Territory. The movements table reflects both the revenue and expense components of this initiative.

Additional Funding for Taskforce Nemesis

The Government has announced additional funding to ACT Policing to strengthen its response to outlaw motorcycle gangs.

Rugby League World Cup

The Government has announced that the Territory will host three Rugby League World Cup matches in Canberra in 2017.

Medicinal Cannabis Scheme

The Government has agreed to facilitate a medicinal cannabis scheme and establish an expert advisory group.

Swimming Pool Safety Education Campaign

The Government will undertake a pool safety awareness raising campaign in the lead up to the 2016-17 summer.

Commissioner for International Engagement

The Government appointed a Commissioner for International Engagement on 1 August 2016 for a period of five years. Costs associated with the appointment will be absorbed by the Chief Minister, Treasury and Economic Development Directorate.

Technical Adjustments – Revenue

Superannuation Investment Earnings and Return Adjustment

Investment earnings for the first month of the financial year are ahead of current budget expectations with a net positive flow-on financial impact in the forward years.

Territory Banking Account Interest Revenue

Territory Banking Account (TBA) interest revenue comprises interest income from investments, bank account balances, and interest from loans provided to agencies. The decrease in interest revenue reflects lower prevailing domestic interest rates.

Technical Adjustments – Expenses

Superannuation Liability Valuation

At the time of the 2016-17 Budget, the Superannuation Liability Valuation and the estimated superannuation expense for 2016-17 were based on an estimated discount rate of 3.2 per cent. The increase in the Superannuation Liability Valuation at 30 June 2016 and the consequent increase in the superannuation expense for 2016-17 is due to the lower actual discount rate of 2.69 per cent at 30 June 2016.

Capital Metro Post Financial Close Update

The financial close of Capital Metro resulted in a positive operating impact, compared to the 2016-17 Budget estimate. This was predominantly due to a favourable result on interest rates at financial close, partly offset by an unfavourable result for foreign exchange.

Territory Banking Account Interest Expenses

Territory Banking Account interest expenses represent interest payments on borrowings. The decrease in interest expenses reflects lower prevailing domestic interest rates.

Provisions

The Territory's budget includes a number of provisions that aim to improve the accuracy of the budget estimates.

The Infrastructure Investment Provision makes allowance for some high-value capital works projects for which budgets are yet to be settled, or which are commercially sensitive. This provision includes a general allowance of \$100 million per annum which is not yet allocated to any specific project.

The Capital Delivery Provision is intended to compensate for potential risks that may arise in terms of delivery timeframes for capital assets, with this provision representing an aggregate-level adjustment to the Territory's capital works program.

The profiles for both capital provisions remain unchanged from those published in the 2016-17 Budget, as set out in Table 5.

It is standing practice that details of provisions for specific capital projects are not disclosed as such information is considered to be commercial-in-confidence.

Table 5: Capital Provisions

| Capital Provisions | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|-------------------------------------|---------|---------|---------|---------|
| | \$m | \$m | \$m | \$m |
| Infrastructure Investment Provision | 1.0 | 129.7 | 114.6 | 100.0 |
| Capital Delivery Provision | -109.4 | -36.5 | 109.4 | 36.5 |
| Total Capital Provisions | -108.4 | 93.2 | 224.0 | 136.5 |

The estimates in the PEBU also include a number of expense provisions that impact on 2016-17 and the forward years. These provisions and their purposes are set out in Table 6.

Table 6: Expense Provisions

| Expense Provisions | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|---|---------|---------|---------|---------|
| | \$m | \$m | \$m | \$m |
| Australia Forum ¹ | 0.0 | 8.0 | 0.0 | 0.0 |
| Conservative Bias Allowance and minor operational provisions ² | 41.2 | 54.3 | 61.8 | 105.2 |
| Cost of capital ³ | 2.5 | 5.0 | 7.5 | 10.0 |
| Rental impact of the sale of government office buildings ⁴ | 2.6 | 5.8 | 5.8 | 11.5 |
| Health Policy Provision ⁵ | 0.0 | 24.4 | 61.8 | 100.2 |
| Tharwa Village Non-Potable Fire Fighting Water ⁶ | 0.0 | 0.2 | 0.2 | 0.2 |
| Wages provisions ⁷ | 4.5 | 12.6 | 22.5 | 31.7 |
| Water for the Future (Maintenance) ⁸ | 0.0 | 0.3 | 0.8 | 1.3 |
| Total Expense Provisions | 50.8 | 110.6 | 160.4 | 260.1 |

Notes: Numbers may not add due to rounding.

1. Provides for the development of an investment-ready proposal for the Australia Forum.

2. Provides an offset for the tendency for expenses in future years to be underestimated and includes provisions for minor operational expenses agreed late in the budget process.

3. Provides for the cost of capital of assets consistent with the inclusion of the general capital provision.

4. Provides for the shift in rental payments from the ACT public sector to the private sector following the scheduled sale of a number of ACT Government commercial properties, largely under the Commonwealth Government's Asset Recycling Initiative.

5. Provides for future health spending, as detailed at the top of page 105 of the 2016-17 Budget Paper No. 3.

6. Provides for funding to be directed to this project should the Commonwealth provide matching funding under the *National Stronger Regions Fund.*

7. Provides for potential wage increases beyond the expiry of existing Enterprise Bargaining Agreements. This provision reflects a pay rise of around 2 per cent per annum.

8. Provides for the maintenance of assets created under the *Water for the Future* Scheme as the exact projects and timing of completion are yet to be determined. The exact profile will be appropriated to relevant agencies once these projects are completed.

Net Operating Cash Balance

The Net Operating Cash Balance measures all operating cash receipts for a financial year (eg taxes, fees and fines, and operating grants from the Commonwealth Government) less all operating cash payments (including wages and salaries, cash superannuation payments and payments for goods and services).

The revised forecast for the GGS Net Operating Cash Balance at the end of 2016-17 is a \$240.0 million surplus, a decrease of \$29.3 million compared to the 2016-17 Budget forecast of \$269.3 million.

| General Government Sector | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|-----------------------------------|---------|----------|----------|----------|
| | Budget | Estimate | Estimate | Estimate |
| | \$m | \$m | \$m | \$m |
| 2016-17 Budget Net Operating Cash | 269.3 | 522.6 | 410.4 | 667.9 |
| 2016 Pre-Election Budget Update | 240.0 | 515.0 | 409.1 | 631.8 |
| Net Operating Cash | | | | |

Table 7: Net Operating Cash Balance

Net Debt

Net Debt is a key balance sheet measure in the Government Financial Statistics framework which takes into account gross debt liabilities, as well as assets (such as cash reserves and investments). Net Debt is calculated as the sum of deposits held, advances received and borrowings, less the sum of cash and deposits, advances paid and investments loans and placements. Superannuation investments have been excluded in determining Net Debt.

The GGS Net Debt, excluding superannuation investments, is forecast to be positive \$1,916.0 million, a reduction of \$164.2 million compared to the 2016-17 Budget forecast of positive \$2,080.2 million. This reduction is largely due to higher investments held by the Territory Banking Account, consistent with lower cash draw downs by agencies over 2015-16, and the interim outcome. It is likely to be necessary to rollover some of these underspends from 2015-16 to 2016-17 and future years to complete projects. Should this be the case, Net Debt would increase.

A positive Net Debt indicates that debt liabilities are greater than GGS cash reserves and investments.

| General Government Sector | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|---|---------|----------|----------|----------|
| | Budget | Estimate | Estimate | Estimate |
| | \$m | \$m | \$m | \$m |
| 2016-17 Budget Net Debt (excluding Superannuation Related Investments) | 2,080.2 | 2,103.8 | 2,902.7 | 2,581.3 |
| 2016 Pre-Election Budget Update Net Debt (excluding Superannuation Related Investments) | 1,916.0 | 1,987.0 | 2,834.8 | 2,538.5 |

Net Financial Liabilities

Net Financial Liabilities are calculated as total liabilities less financial assets (such as cash reserves and investments). It takes into account all non-equity financial assets but excludes equity held by the GGS in public corporations (eg Icon Water Ltd).

The revised forecast for GGS Net Financial Liabilities for 2016-17 is \$5,215.6 million, a decrease of \$280.9 million compared to the 2016-17 Budget forecast. The decrease in the Net Financial Liabilities position is largely due to the increase in investments held by the TBA.

| General Government Sector | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|--|---------|----------|----------|----------|
| | Budget | Estimate | Estimate | Estimate |
| | \$m | \$m | \$m | \$m |
| 2016-17 Budget Net Financial Liabilities | 5,496.5 | 5,659.6 | 6,411.5 | 6,226.7 |
| 2016 Pre-Election Budget Update Net Financial Liabilities | 5,215.6 | 5,423.2 | 6,221.1 | 6,058.2 |

Table 9: Net Financial Liabilities

Net Worth

Net Worth provides a broad measure of the Territory's balance sheet, and is calculated as total assets less total liabilities including superannuation.

The forecast GGS Net Worth for 2016-17 has been revised to \$17,457.2 million, an increase of \$357.0 million compared to the 2016-17 Budget forecast of \$17,100.2 million. The increase in Net Worth is largely due to the increase in investments held by the TBA, and an increase in GGS investment in the Public Trading Enterprise Sector as a result of revaluations undertaken of the public housing portfolio of assets.

Table 10: Net Worth

| General Government Sector | 2016-17 | 2017-18 | 2018-19 | 2019-20 |

| | Budget | Estimate | Estimate | Estimate |
| | \$m | \$m | \$m | \$m |
| 2016-17 Budget Net Worth | 17,100.2 | 17,316.4 | 17,515.6 | 17,735.9 |
| 2016 Pre-Election Budget Update Net Worth | 17,457.2 | 17,651.9 | 17,835.1 | 18,015.5 |

The Territory's Credit Rating

The Territory's credit rating was reaffirmed on 26 August 2016, and remains unchanged from the 2016-17 Budget. The ACT has an AAA long-term and a A-1+ short-term local currency credit rating from international ratings agency, Standard & Poor's.

The Territory's outlook has been downgraded from stable to negative since the 2016-17 Budget, following the Commonwealth Government's outlook being downgraded by Standard & Poor's. The Territory outlook downgrade is consistent with Standard & Poor's view that no State or Territory in Australia can maintain stronger credit characteristics than the sovereign (ie the Commonwealth Government).

Items Not Included in the PEBU Estimates

The estimates in the PEBU reflect current Government policy, including decisions made since the 2016-17 Budget. The estimates do not pre-empt future decisions that may eventuate. Some key examples of items not included in the PEBU are set out below.

Light Rail – Stage 2: City to Woden

On 2 September 2016, the ACT Government announced the selection of a preferred corridor for Stage 2 of the Light Rail network as being from the city to Woden. At the time of the publication of the PEBU, the Government had not formally agreed to a business case, feasibility studies, design or construction of Light Rail – Stage 2. Reflecting this, the PEBU does not include costs for any of these elements of the Light Rail – Stage 2 project.

The estimated expenses and revenue of TCCS, which has responsibility for public transport, including light rail and ACTION, are included in the PEBU estimates.

City to the Lake

Planning for the City to the Lake includes the potential for the construction of: a new waterfront; new pedestrian, bicycle and vehicular connections; works on Parkes Way; an aquatic centre; the Australia Forum project; and a sports stadium. While some budget allocation has been provided for early planning and design, and intersection and public realm works, no budget allocation exists for the construction of any of the aforementioned projects. Funding was provided in the 2015-16 Budget for the construction of a new public park and intersections on Commonwealth Avenue to improve access to the West Basin.

School Enrolment Growth

The Government adjusts the Education Directorate's funding each budget to provide for changes in public school enrolments from the previous year. The forward estimates do not include adjustments to funding associated with potential changes in future public school enrolments.

Land Release

The PEBU estimates include revenue from the sale of land consistent with the Indicative Land Release Program. In some cases, this release of land will require the Government to invest in trunk infrastructure (eg the installation of stormwater services). However, as no decisions have yet been made by the Government, no amounts have been included in the estimates for this infrastructure.

Major Health Infrastructure

The PEBU estimates make no provision for future major health infrastructure other than those already published as part of previous budget updates. No explicit additional funding has been provided to the Health Directorate to meet the operating costs of the public hospital being constructed at the University of Canberra. However, there is sufficient capacity and flexibility in existing health funding levels (including the health funding provision) to meet the full operational costs of the facility.

Sporting and Cultural Events

The PEBU estimates include funding for those events agreed by the Government, including international test and one day cricket matches, an A-League match and three Rugby League World Cup matches. No provision has been made for potential additional major one-off type events of this nature that may be agreed by a future Government.

Capital Rollovers

As is the case in most years, there is likely to be funding rolled over from 2015-16 to 2016-17, largely as a result of delays in capital program delivery. While these rollovers will affect spending and investment profiles, they have not been included where they have not yet been considered by government.

APPENDIX A: INITIATIVES WITH TIME LIMITED FUNDING

Initiatives with Time Limited Funding

Table A.1 lists those initiatives that were funded for one or two years in either the 2015-16 or 2016-17 Budgets and have a 2016-17 and/or a 2017-18 impact. Future funding, if any, for any of these items would require a decision by government. This appendix is not an attempt to pre-empt any future government decisions but, instead, is intended to provide an indication of items that may be reconsidered by government, potentially impacting on the forward estimates.

Notes:

1. This initiative has an associated capital component of \$310,000 in 2016-17.

2. This initiative has an associated capital component of \$626,000 in 2016-17.

3. From 2018-19, funding for this initiative reduces to \$1 million per annum.

4. Responsibility for this service is expected to be taken over by the National Disability Insurance Scheme at some point in the future.

- 5. The Government provided additional resources in the 2015-16 and 2016-17 Budgets to support increased numbers of students with a disability to access and participate in education in Canberra public schools. Funding provided to disability education in public schools is expected to be \$69.9 million in 2016-17.
- 6. These initiatives are funded from within the Health Funding Envelope.
- 7. This initiative has an associated revenue component of \$14,000 in 2016-17.

Design Work and Feasibility Study Initiatives

Table A.2 lists initiatives that have received funding for design work or feasibility studies but no decision has been made to proceed to construction. Of the 46 initiatives listed, 30 have received funding for feasibility studies, while 16 have received funding for design work.

A design study typically occurs after a feasibility study has been completed, and allows detailed specifications and scoping work to be developed. A feasibility study attempts to verify whether a proposed project is well-founded and is likely to meet the needs of its intended target group(s).

The forward estimates do not currently incorporate impacts for any of the capital projects that may ultimately be approved following finalisation of design work and/or feasibility studies.

Table A.2: Design Work and Feasibility Studies in the Capital Works Program

Note:

1. This component relates to funding provided in the 2016-17 Budget (some works have already been undertaken).

Consistent with Section 11(d) of the *Financial Management Act 1996* (FMA), each budget update is required to provide a statement describing the risks – quantified if possible – that may affect the budget estimates. Full details of economic and fiscal risks, and contingent liabilities, other commitments and outstanding claims liabilities were provided in Appendix M to the 2016-17 Budget Paper No. 3.

The following risks have been identified at the time of the publication of the 2016 Pre-Election Budget Update (PEBU). Unless indicated below, risks identified in the 2016-17 Budget are unchanged.

Fiscal Risks

A number of fiscal risks were raised in the *Budget Outlook* section – in particular, where specific projects and future events have not had business cases considered by the Government, no amounts have been included in the estimates. Furthermore, the Government has funded a number of initiatives for one or two years as well as design work and feasibility studies for future projects. Such items may be reconsidered by government, potentially impacting on the forward estimates; they are listed in Appendix A.

The Treasurer's Advance allows the Treasurer to authorise expenditure under section 18 of the FMA where requests meet the specified criteria. The authorised limit for this appropriation in 2016-17 is \$47.6 million, but no requests had been approved as at 8 September 2016. Since the 2012-13 PEBU, the budgeting arrangements for the Treasurer's Advance have changed such that no explicit provision for spending from the Treasurer's Advance has been included in the Budget estimates. That is, the approval of any request involving a Treasurer's Advance would reduce the published Headline Net Operating Balance (HNOB).

Defined Benefit Employer Superannuation Liabilities

The value of accrued superannuation liabilities is calculated as the present value of the future payment of benefits that have actually accrued in respect of service at the calculation date. Due to the complex nature of this liability, small variations to the long-term financial or demographic assumptions can lead to large financial impacts on the accrued liability valuation estimate for the Territory. The valuation of the liability is most sensitive to the discount rate (referenced to a long-term Commonwealth bond rate), inflation, wages growth, rates of retirement and resignation, investment returns, benefit stream election, and mortality rates.

The estimate of the discount rate used in the 2016-17 Budget for valuing the liability at 30 June 2016 was 3.2 per cent. The impact of the actual rate of 2.69 per cent at 30 June 2016 increased the estimate of the superannuation liability by \$1.0 billion. The forward estimates are based on the use of a long-term average discount rate assumption of 6.0 per cent. This results in a reduction in the liability valuation by \$4.8 billion in 2016-17.

Contingent Liabilities

Contingent liabilities are liabilities that result from uncertain timing or amounts. They arise from past events that are not recognised because their outflow of economic benefit is not probable or the liability cannot be measured reliably. Contingent liabilities can also occur when a liability is contingent on the outcome of an event outside the Territory's control, such as the outcome of a court case.

The types of claims lodged against the Territory include property damage, contract disputes, economic loss, personal injury and tax-related claims. Details of the Territory's contingent liabilities are identified in the ACT Government Consolidated Annual Financial Statements, which are available online.

Payments on repeal or amendment of the *Electricity Feed-in (Large Scale Renewable Energy Generation) Act 2011*

ACT large-scale renewable energy projects are supported by feed-in tariffs (FIT). The Territory has given undertakings to pay compensation to various parties contracted to deliver renewable energy projects, should the Government change the FIT scheme in certain specified ways that adversely affect the recipient of the FIT entitlement. The undertakings compensate the recipient for direct losses, costs and expenses up to a capped amount. A cap applies each year from commencement.

Between the time of the 2016-17 Budget and as at the date of the 2016 PEBU, two new renewable energy projects have been agreed; these are listed in Table B.1 below. The maximum caps operate from the date the FIT entitlement is granted for these projects until an agreed date. Compensation agreements for all such projects expire at or before the end of the 20 year FIT entitlement period. The Territory's overall commitment declines over the life of the agreements.

| Renewable energy project | FIT entitlement granted | 20 year FIT entitlement begins |
|-------------------------------|-------------------------|--------------------------------|
| Hornsdale Wind Farm (Stage 3) | August 2016 | October 2019 |
| Crookwell 2 Wind Farm | August 2016 | September 2018 |

| Table B.1: Details of Newly Contracted Renewable Energy Projects |
|--|
|--|

Other Items

Outstanding Claims Liability

The value of insurance liabilities is the present value of the future claim payments that have accrued at the calculation date. This approach is required under Australian Accounting Standard AASB1023 *General Insurance Contracts*.

Accounting for insurance claims is complex and actuarial assumptions are required to estimate the ACT Insurance Authority's obligations and claims expense. There is uncertainty in the estimate of the liability and this can result in actuarial gains or losses when the claims experience differs from the estimates. The liabilities are discounted to allow for the time value of money as claims may be settled many years after the claim is incurred.

Further to the entry for this item in the Statement of Risks in the 2016-17 Budget Paper No. 3 (Attachment M, page 421), the outstanding claims provision has been updated. As at 30 June 2016, the provision was \$248.7 million net of reinsurance recoveries. Variations in the discount rate of plus or minus one percentage point results in an estimated change to the liability of between a \$11.6 million decrease and a \$12.5 million increase, equivalent to a change of between -4.7 per cent and 5 per cent.

Constitution Avenue

The Territory's balance sheet currently includes a work-in-progress asset to account for the investment in the Constitution Avenue upgrade project. Constitution Avenue is owned by the Commonwealth. Once completed and landscaping elements are established, the improvements will be transferred to the Commonwealth. The accounting treatment for this transfer is yet to be determined, reflecting the unusual nature of the project; it will either be an equity transfer or expensed.

If the appropriate treatment is an equity transfer, the accounting would be restricted to the balance sheet, with no operating impact. If expensed, the Territory's HNOB would be reduced by the value of the asset, which is approximately \$44.0 million. This impact would likely occur across a number of years, reflecting the timing of the transfer of the asset components of the project.

APPENDIX C: STATEMENT OF SENSITIVITY OF THE BUDGET ESTIMATES

The sensitivity of the General Government Sector (GGS) Headline Net Operating Balance (HNOB) to changes in certain budget assumptions presented within this section has been reviewed since they were presented in the 2016-17 Budget Papers.

The sensitivity of ACT Budget revenue and expenses to changes in the Consumer Price Index (CPI) and the Wage Price Index are unchanged from those shown in the 2016-17 Budget.

Sensitivity of Budget Estimates

The following sensitivity analysis has been applied to economic parameters used in the formulation of the revised forward estimates.

Territory revenues are sensitive to changes in economic conditions, both in the ACT and nationally – for example, through GST revenues.

Territory expenses are less sensitive to economic conditions. However, over time, changes in demographic variables may affect the demand for government services. In response, policy decisions may be taken to vary expenditure levels to accommodate the change in demand.

The following tables set out the sensitivity of economic and other assumptions on the GGS HNOB. This represents a 'rule of thumb' for the magnitude of changes, based on 2016-17 information.

Interest

Interest on cash investment portfolios held by the Territory Banking Account (TBA) and the Superannuation Provision Account (SPA) are affected by interest rate variations. The estimated impact of a 1 percentage point variation in the amounts forecast in the Pre-Election Budget Update (PEBU) estimates for interest revenue is shown in Table C.1.

Table C.1: Impact of a 1 Percentage Point Increase in Interest Rates on Interest Revenue

| | 2016-17 \$'000 | 2017-18 \$'000 | 2018-19 \$'000 | 2019-20 \$'000 |
|---|-------------------|-------------------|-------------------|-------------------|
| Territory Banking Account ¹ | 8,026 | 5,317 | 5,911 | 6,239 |
| Superannuation Provision Account ¹ | 7,636 | 1,944 | 2,050 | 2,203 |

Note:

1. A decrease of 1 percentage point is estimated to reduce interest revenue by the same amounts negatively.

The estimated impact of a 1 percentage point variation in the assumptions used to calculate the interest costs on the Territory's variable rate borrowing exposures is shown in Table C.2.

Table C.2: Impact of a 1 Percentage Point Increase in Interest/CPI Rates on Borrowing Costs

| | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|---|---------|---------|---------|---------|
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Territory Banking Account – Total Borrowings ¹ | 4,542 | 8,289 | 8,453 | 8,502 |

Note:

1. A decrease of 1 percentage point is estimated to reduce borrowing costs by the same amounts negatively.

Currency

The estimated impact on international asset valuations from a 1 per cent variation in the Australian dollar against all unhedged international currency holdings, with everything else held constant, is shown in Table C.3.

Table C.3: Impact of a 1 Per Cent Increase in the Australian Dollar on Valuations

| | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|---|---------|---------|---------|---------|
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Superannuation Provision Account ¹ | -5,426 | -9,817 | -10,353 | -11,128 |

Note:

1. A decrease of 1 per cent is estimated to increase the investment valuation by the same amounts positively.

Equity Valuation

Table C.4 outlines the estimated impact to the SPA equity portfolio valuation from a 1 per cent variation in equity security valuations.

Table C.4: Impact of a 1 Per Cent Increase in Equity Valuations

| | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|---|---------|---------|---------|---------|
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Superannuation Provision Account ¹ | 18,069 | 18,468 | 19,475 | 20,933 |

Note:

1. A decrease of 1 per cent is estimated to reduce the investment valuation by the same amounts negatively.

Superannuation Liabilities

Table C.5 outlines the impact to the Commonwealth Superannuation Scheme/Public Sector Superannuation Scheme (CSS/PSS) defined benefit superannuation liability from a 1 per cent increase in the discount rate from the PEBU budgeted discount rate of 6 per cent.

Table C.5: Impact of a 1 Per Cent Increase in the Liability Discount Rate

| | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|----------------------------------|----------|----------|----------|----------|
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Superannuation Provision Account | -841,000 | -870,000 | -896,000 | -920,000 |

Table C.6 outlines the impact to the CSS/PSS defined benefit superannuation liability from a 1 per cent decrease in the discount rate from the PEBU budgeted discount rate of 6 per cent.

Table C.6: Impact of a 1 Per Cent Decrease in the Liability Discount Rate

| | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|----------------------------------|-----------|-----------|-----------|-----------|
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Superannuation Provision Account | 1,067,000 | 1,099,000 | 1,128,000 | 1,153,000 |

Superannuation Expenses

Table C.7 outlines the impact on CSS/PSS defined benefit superannuation expenses from a 1 per cent increase in the discount rate from the PEBU budgeted discount rate of 6 per cent.

Table C.7: Impact of a 1 Per Cent Increase in the Discount Rate on Superannuation Expense

| | 2016-17 | 2017-18 | 2018-19 | 2019-20 |

| | \$'000 | \$'000 | \$'000 | \$'000 |
| Superannuation Provision Account | -37,000 | -27,000 | -25,000 | -23,000 |

Table C.8 outlines the impact on CSS/PSS defined benefit superannuation expense from a 1 per cent decrease in the discount rate from the PEBU budgeted discount rate of 6 per cent.

Table C.8: Impact of a 1 Per Cent Decrease in the Discount Rate on Superannuation Expense

| | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
|----------------------------------|---------|---------|---------|---------|
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Superannuation Provision Account | 39,000 | 29,000 | 26,000 | 23,000 |

Sensitivity of Other Assumptions

Employee Wage Negotiations

Wages make up the single largest cost in providing government services. As a result, the budget estimates are sensitive to the outcome of certified agreement negotiations. The 2016-17 Budget and forward estimates make provision for a pay rise of around 2 per cent per annum.

APPENDIX D: FINANCIAL STATEMENTS – GENERAL GOVERNMENT SECTOR

Australian Capital Territory General Government Sector Operating Statement

| | Operating | Statemen | t <u> </u> | | |
