Note:

Any funding shortfall in 2021-22 will be mitigated through cash management from underspends in other projects or through the use of the Capital Works Reserve. In this case, the funding that may be brought forward to 2021-22 through the Capital Works Reserve is currently provisioned and therefore not reflected in the current 'revised project value' for the project. This reflects that provisioned funding is part of the broader infrastructure investment Program but not part of Capital Works reporting until allocated.
